

A simple way to implement payroll giving.

Wider Giving allows your employees to make regular donations to their preferred UK registered charity, directly from their gross salary, thereby making significant tax savings.

How does the scheme work?

Wider Giving encourages your employees to make regular donations to their preferred UK registered charities. Donations are taken from pre-tax pay meaning each donation becomes worth more to the charity.

We provide a fully managed service, taking all the complication out of setting up a payroll giving scheme. We liaise with an HMRC approved Payroll Giving Agency to ensure funds are distributed accurately and quickly.

Wider Giving allows employers of all sizes to engage with employees, and the wider community, to provide support for charities that might not otherwise be available.
