

# An effortless way to help your employees pay for parking

Workplace Parking schemes help employees spread the cost of parking at or near work, making commuting more affordable.

## How does the scheme work?

Workplace Parking schemes can be used for employer-owned parking spaces, for season tickets with independent car park operators and even for covering the cost of a workplace parking levy.

A salary deduction arrangement allows employees to pay for their car parking costs from their net salary, making the cost of parking more affordable.

We offer a fully-managed service, ensuring that all the hard work is done for you.
